
50 Euler steps
one step
(a) one-step displacement $v(\mathbf{x}, 0)$
(b) trajectories of the sampler
(c) outputs: 50 steps and one step
1-rectified
2-rectified (reflow)
defect $\zeta = 1.81$
defect $\zeta = 0.17$
one step: 96% in A
one step: 3% in A
